OUTDOOR LIGHTING

Description

Vortex

Modern form meets softly diffused illumination. This contemporary bollard features a clean cylindrical profile paired with a clear upper band that reveals a sculpted internal reflector. The result is a refined, 360-degree glow that enhances pathways, gardens, and outdoor gathering spaces with warm, inviting light. Its Matte Black finish and minimalist geometry allow it to complement a wide range of architectural styles, while its durable, weather-resistant construction ensures reliable performance year-round.
